TELEGRAPHIC.—Citizens and Strangers are invited to call and examine the operation of the MAGNETIC TELEGRAPH at NORTON'S TELEGRAPHIC ROOMS.

177 Broadway, New-York.

The immense success attending the adaptation of Olmstead's Patent Telegraph Battery to the MAGNETIC MEDICAL MACHINE, has induced the subscriber to accept from the Manufacturers,

Messrs, T. SMITH & CO 77 Fulton-st. the appointment as sole Agent for the sale thereof, and they will hereafter be kept constantly on sale at NORTON'S TELEGRAPHIC ROOMS.

The Olmstead Patent Magnetic Machine, for MEDICAL purposes, is so entirely different from any other medical instruments, that no person can form a proper idea of its advantages without witnessing its operations, when they will be found so apparent as to render argument superfluous. The current of electricity is completely under the control of the operator, and can, from almost imperceptibility, be gradually increased to any strength the patient may desire, while, instead of feeling the painful spasmodic contraction of the muscles produced by all other medical instruments, a genile current is flowing pleasantly through the nervoussystem. Telegraph companies are respectfully informed that every description of Magnetic and Chemical Telegraph apparatus is kept constantly on sale at NORTON'S TELEGRAPHIC ROOMS.

MEDICINES.

The Gemine Compound Extract of

SARSAPARILLA.—There is nothing
more difficult than to procure a medicine upon which
the purchaser may rely as genuine. The adulteration of
drings and medicines is practiced to an extent that would
perfectly astonish may one who is not into the secrats of the
trade. Physicians compilin of it, and Congress has been
petitioned to institute a commission for the prevention of
those frands. Patent medicines are of all others the most
villsted. They are often got up by men iprorant of chousetry, medicine, and the human system, and who, conactous of
the worthlessness of their mixtures, care very little of what
iney are composed, so that they cost nothing. The public
are but slightly aware of the extent to which this game is
carried. The high character and scientific reputation of Dr.
James R. Chilton of New York, who superineeds directly
the preparation of Dr. P. TOWNSEND'S COMPOUND
EXTRACT OF SARSAFARILLA, and whose crufificate
accompanies every bottle, will satisfy all, will place tha
medicine far above suspicion, and leave no room to doubt
its purity or genuineness.

THE NEW FACTORY.

A new and extensive establishment is now being completed in the City of Brooklyn, for the manufacture of Dr.
S. P. Townsend's world-remow ned Sarsaparilla—which has
beretofore been prepared at Albany. But in consequence
of the vast demant for the medicine, and the increasing interest manifested in it by the medical faculty, it has been
found necessary to remove the seat of manufacture to the
vicinity of the great American Metropolls, that the public
may have a better opportunity of observing the extent and
character of the operations. As soon as the arrangementa
are feompleted, and the various departments of laker praperly organized, medical men in particular, and the public
penerally, will be invited to call and inspect for themselves
the systematic and scientific methods adopted in this, extensive business. The exclusive direction of the manufacturing department will continue to be in charg

well known Chemist and Psystems. James R. Chilos, statisticity.

To avoid impositions, it will be necessary to see that DR. JAMES R. CHILTON'S CERTIFICATE, as well as the signature of Dr. S. P. Townsend, is on the outside wrapper of each bottle.
